

Dan Han

Cyber Security Analyst

WORK EXPERIENCE

Resume Worded, London, United Kingdom

Education technology startup with 50+ employees and \$100m+ annual revenue

Cyber Security Analyst

08/2021 – Present

- Conducted weekly security operations for phishing alerts, Security Operations Center (SOC) alerts, and 40+ other security events.
- Performed technical evaluation and penetration testing of 30+ commercially-developed web applications and mobile systems.
- Developed a monthly education plan to improve the IT security-related skills and technologies of 50+ staff members.
- Created a virtual desktop environment that enables 2400+ users to access applications remotely within RW's network via the cloud.

Polyhire, London, United Kingdom

NYSE-listed recruitment and employer branding company

VMware System Administrator

10/2019 – 07/2021

- Initiated new methods that reduced the time required to complete weekly backups by 85%, saving 24 person-hours monthly.
- Utilized 10+ monitoring tools to identify and fix irregular CPU, disk, and memory utilization levels at the company's data center.
- Monitored daily operations of the IT network, ensuring a 90% maximum uptime and performance for all applications.
- Identified and resolved problems with the company's Microsoft Exchange server that prevented 1300+ customer emails from reaching Polyhire.

Growthsi, London, United Kingdom & Barcelona, Spain

Career training and membership SaaS with 150,000 users

Penetration Tester

11/2018 – 09/2019

- Provided technical support regarding security best practices and created new processes that improved security posture across 20+ business units.
- Developed training materials about information security awareness for 40+ staff members in the first month of employment.
- Utilized SQL injection, cross-site scripting, and OS command injection to pinpoint and manipulate vulnerabilities in 30+ web applications.
- Performed network and web application penetration testing using Burp Suite, Arachni, Nikto, SQLmap, and 10+ other automated tools.
